

More Cognitively Advanced Individuals with Autism Spectrum Disorders: Autism, Asperger Syndrome and PDD/NOS - the Basics

The second edition of this concise, plain-English guide fully explains all of the common areas of difficulty for more cognitively advanced individuals with autism, Asperger syndrome and PDD/NOS, and provides much-needed support, uncomplicated advice, and practical, positive solutions. Susan J. Moreno provides an accessible summary of up-to-date information on the diagnostic criteria of ASD, including the common traits and characteristics to look out for. She explores common areas of difficulty, offering a wealth of practical advice and tried-and-tested strategies for meeting the needs of each individual. Topics covered include the individual with autism at home, schooling, tips for teaching, sensory issues, and social skills and involvement in the community. The book closes with useful appendices of practical advice for parents, teachers, medical professionals, and others who care. This handy and informative guide is ideal for teachers, parents, health professionals, individuals on the autism spectrum and anyone else who would like to find out more about autism spectrum disorders.
