

# A Family Album: Living with Schizophrenia

Dan Liberthson, Ph.D., has written a remarkable book, a series of lyrical and powerful poems that tell the story of his youth and maturation in a Jewish immigrant family in upstate New York. Sly and comedic portraits of aunts, uncles, and grandparents vie with darker material, including an astonishingly rich sequence of poems about his relation to his younger, schizophrenic, sister, and the dramatic effect of her illness on him and his parents. Many of the poems are based on striking family photos from the 1940s and 1950s, 12 of which are included in the book. Other visual material includes several abstract graphic designs that explore the overall theme of the labyrinth of the family, and a full-color cover. This handsome package also includes two CDs with a high-quality recording of Liberthson, a trained and compelling vocal interpreter, reading the entire book. For those unused to reading poetry, who want to hear the expressive voice of the author interpreting the book, and who want the convenience of listening as they drive or rest their eyes, these CDs are an invaluable bonus. For further information, please visit Dan's website at [Liberthson.com](http://Liberthson.com).
