

Beyond the First Dance: A Guide for Couples to Think Beyond Their Wedding Day

Did you want your marriage to last a lifetime? In *Beyond the First Dance*, the author encourages couples to look closely at the habits they establish in the early years of their relationship. These are the dance steps that will prevent a couple from repeatedly stepping on each others toes and help them stay in sync. The early years of The Tango will morph into Line Dancing, as a couple settles into everyday life. Learning to face the challenges that many married couples experience is what builds a lasting partnership and emotional intimacy. This guide can help couples discover their own dance, to ensure they will be there for The Waltz.
