The Yosephs have written the most stunning expose. In simple language they reveal the science, the corruption and the enormous conspiracy it took to bring statins to market. As fast paced as a Mickey Spillane novel they report the research, the fraud and the facts like a detective in hot pursuit of a Nazi war criminal. Once picked up it cannot be put down until the reading is done. It is riveting. They have accomplished the impossible: they have made both complex science and medical history fascinating to read. What could not be done in an expose they accomplished with almost unbelievable ease. It will change your paradigms about medicine forever as will the sequel Poisoned! (Recovery From Statin Side Effects). Read it!
