

Saving Beauty: A Novel of Love, Healing, and Multiple Sclerosis

Does love have its limits? Are couples challenged beyond what they can handle when one becomes ill? How does one cope in the face of a devastating, debilitating disease that has come to steal your loved one from you? *Saving Beauty* is a deeply personal narrative of a marriage transformed by the emergence of a serious illness. Dr. Kaplan shares his touching story of loving a beautiful woman ravaged by multiple sclerosis. A tale of love, sensitivity and strength emerge from the pages as Dr. Kaplan examines the psychological and social effects of disability with the wisdom and expertise of a training psychologist. *Saving Beauty* is not only about facing the unexpected, it is also about exploring the meaning of soul, and learning how to muster courage and acceptance while dealing with life and death issues. Dr. Kaplan provides pragmatic insight into celebrating life, even through the devastation and pain. *Saving Beauty* examines how circumstances, good and bad, shape our characters and destinies, as it champions the importance of hope. These memoirs capture the redemptive power of love in the face of despair. With a surprising conclusion, the reader discovers how pain and loss can become catalysts for amazing soulful transformations. Dr. Harvey A. Kaplan is a psychotherapist who lives and practices in New York City.
